"Pressestimmen 'This is a very entertaining booklet, particularly for cardiac surgeons in practice and in training. It is not, and does not intend to be, a textbook or a quick review of cardiac surgery to keep in one s pocket. What it intends to be is a reminder of things cardiac surgeons do and will certainly cause the reader to smile once or twice to think of a situation in which most of the sayings apply during their daily practice.' 'Mario Albertucci, MD'; 'Doody s Health Sciences Book Review Journal'' Synopsis This handy paperback will be the topic of conversation in operating rooms everywhere. Wit, wisdom and sage advice are furnished to the cardiac team. These tidbits of information will cause a surgeon to reflect, chuckle, and even evaluate his practice.".
