"Synopsis Some people are gifted with the ability to see auras, the coloured energy and light fields we all have around our physical bodies. An aura reveals an individual's spiritual, mental, emotional and physical state; their personality, gifts, aptitudes and other personal characteristics. Even inanimate objects have auras, as do animals, flowers, trees, houses, communities and cities. Paul Lambillion teaches people how to discern these auras and use this gift in a constructive way so that they can become more effective people and better healers. In this unique book, he presents a course in learning to understand our subtle bodies, which can bring a deep perception of the whole human being. It includes many useful exercises and meditations, helping us to unfold our own vision of colours and auras. In addition, the author gives much information on the meanings of the colours and how an understanding of them can bring harmony to our everyday lives. Other books by Paul Lambillion How to Heal and Be Healed. Über den Autor und weitere Mitwirkende Paul Lambillion is a healer and teacher who runs workshops in spiritual awareness in the UK, Switzerland, Austria, Germany and the USA.
