"Críticas ""From volcanic burps to colonic bacteria, this comic-book ride through the human digestive system is a delirious joy." --Nature ""If you've got kids that are always curious and looking to learn new things, these are three gems that absolutely must be on your bookshelf." --GeekDad ""Outstanding. Fast-paced, light-hearted, and fun. It's all about the discovery and adventure!" --Confessions of a Science Librarian ""Abundant scientific information in a format that is appealing and exciting." --NSTA (National Science Teachers Association) ""The science is detailed and accurate and presents the workings of the the digestive, circulatory and nervous systems in a way likely to appeal to young minds." --COSMOS Magazine Reseña del editor ""**A wild ride. Positively clogged with scientific information.**"" ?**Kirkus Reviews***Survive! Inside the Human Body, Volume 3* concludes our incredible tour of the human body with a wild ride through the nervous system. When Geo and Dr. Brain find themselves inside Phoebe's brain, they must brave shocking electrical signals and navigate a maze of neurons and synapses. Will the dynamic duo finally escape? And what's the matter with Phoebe, anyway? As you follow this up-close exploration of Phoebe's brain, you'll learn how the brain and nervous system work.**For ages 8+** Biografía del autor Gomdori co. gathers expert writers from various fields to create fun and informative stories for kids. *Survive! Inside*

the Human Body was written by Suk-young Song. Illustrator Hyun-dong Han studied manhwa (Korean comics) at the Department of Cartoon Art at Kongju National University. His debut series New Tales of the Nine Tailed Fox ran for six years and he's well known for his work on Ghost Tunes and the Survive! series."
