"Reseña del editor As fundamental changes have occurred in racing  
and rally car design, this edition brings the subject up to date with the  
latest developments in competition car technology. The book gives  
details on all aspects of competition car building, including tools and  
construction techniques, tyres, suspension and steering,  
aerodynamics, classic competition cars and vital data. There are full  
descriptions of push/pullrod suspension, bump-steer, corner  
weighting and other technical details. There is a complete technical  
analysis of champion ""750"" Formula cars, steel and light alloy data  
and codes and inside facts about Peugeot's rally car ""master  
plan""."

## **race and rally car sourcebook the guide to building and**
