"Pressestimmen ?Long awaited, much anticipated, and truly a magnum opus, Body Encyclopedia brings together many decades of research and clinical practice. Lisbeth Marcher, Sonja Fich, and their colleagues have produced an unparalleled system of both diagnosis and treatment that will place body psychotherapy, and especially Bodydynamics, in the mainstream of both psychotherapy and medicine. This work is both scientifically rigorous and accessible to all professionals in the field of health care.? ?Jacqueline A. Carleton, PhD, editor of the United States Association for Body Psychology Journal ?I believe that most schools of psychology and therapy have failed to understand fundamental ways humans use to make meaning about themselves in the world. Marcher, Fich, and their Bodydynamic colleagues make a stunning step forward in overcoming this error by providing a fundamental developmental framework that helps us to understand the pathways humans move through and how to work effectively with our patients, young and old.? ?Ed Tronick, PhD, professor of psychology, University of Massachusetts; chief faculty, Infant-Parent Mental Health Post-Graduate Certificate Program, University of Massachusetts; and director, Child Development Unit, Children's Hospital Boston, Harvard Medical School ?Body Encyclopedia brings together forty years of rigorous research, theory, and practice in the field of mind-body psychotherapy. In an outstanding class of its own, it contains the most precise anatomical understanding of the human condition along with numerous practice exercises generously articulated throughout the book. This offering from Lisbeth Marcher, Sonja Fich, and their Bodydynamic colleagues brings a whole new level of essential knowledge

to the field.? ?Ian Macnaughton PhD, RCC, past president of the BC Association of Clinical Counsellors and editor of Body, Breath, and Consciousness and Embodying the Mind and Minding the Body ?Body Encyclopedia by Lisbeth Marcher and Sonja Fich is the most detailed study of functional muscular anatomy for therapists that exists. This book will be an invaluable reference for all body psychotherapists.? ?Dr. David Boadella, founder of Biosynthesis and the Energy and Character journal?Some forty years of research and theory come together in this key acquisition? It offers a satisfying blend of tested results from clinical practice paired with decades of research, considering diagnosis and treatment that will place body psychotherapy in line with mainstream medicine. ? Not to be missed!?! Midwest Book Review Über den Autor und weitere Mitwirkende Lisbeth Marcher and Sonja Fich are two of the cofounders of the Bodydynamic Institute, a worldwide organization that offers Bodydynamic Analysis training and services. Marcher is president of the European Association for Body-Psychotherapy. Fich is a psychotherapist, bodydynamic analyst, and relaxation educator. Both live in Denmark."
