"Críticas "An excellent visual reference, and its case studies show how some of the world's most popular brands have been developed by expert brand managers, marketing professionals and designers." Reseña del editor Tout le monde sait que le logo est un élément essentiel dans la stratégie de marque. Un bon logo peut donner une image séduisante à presque n'importe quoi, il n'est donc pas surprenant que sa conception soit une étape cruciale dans le processus de développement d'un produit ou service. Ce troisième tome de la série Logo Design rassemble des logos du monde entier, organisés en chapitres par thèmes, par exemple secteur de la création, événements, mode, médias, musique, distribution et services. Un index détaillé donne toutes les informations sur l'entreprise, le designer et le site web du designer de chaque logo. Vous trouverez également des études de cas qui donnent une perspective plus approfondie sur l'application et le développement des logos. Parmi les nouveautés, ce volume comprend des entretiens avec H5, les réalisateurs du film Logorama, qui a remporté un Oscar en 2010, avec les Research Studios de Neville Brody sur la refonte du logo de Music for Youth, avec Sasha Vidakovic sur la nouvelle identité pour Victoria Beckham, avec le grand studio de design canadien Concrete sur le lancement des cosmétiques SUPER, avec le studio britannique KentLyons sur le prix de cinéma Jarman, avec les Argentins de HB Design sur le logo du bicentenaire du pays, et avec Helmut Langer à propos des identités universelles. Biografía del autor Julius Wiedemann studied graphic design and marketing and was an art editor for newspapers and design magazines in Tokyo before joining TASCHEN in 2001. His titles include the Illustration Now! and Record Covers series, as well as the infographics collection and books about advertising and visual culture."
