"Dalla seconda/terza di copertina In the Shadow of Genius is the newest book by photographer and author Barbara Mensch. The author combines her striking photographs with a powerful first-person narrative. She takes the reader on a unique journey by recalling her experiences living alongside the bridge for more than 30 years, and then by tracing her own curious path to understand the brilliant minds and remarkable lives of those who built it: John, Washington, and Emily Roebling. Many of Mensch's photographs were inspired by her visits to the Roebling archives housed at Rutgers University, where she pieced together through notebooks, diaries, letters, and drawings the seminal locations and events that affected their lives. Following in their footsteps, Mensch traveled to Mühlhausen, Germany, the birthplace of John Roebling; to Saxonburg, Pennsylvania, where Roebling established a utopian community in 1831; to Roebling aqueducts and bridges in Pennsylvania, Ohio, and New York; and to the Civil War battlefield in Gettysburg, Pennsylvania, where Washington Roebling, the son of the famous engineer, valiantly served as a Union soldier. The book begins and ends with Mensch's unique photographs of the Brooklyn Bridge, including never-before-seen images captured deep within the structure. The book creatively fuses contemporary photography with the historical record, giving the reader a new perspective on contemplating the masterwork. Fernanda Perrone, Curator of Special Collections and the Roebling Family Archive at Rutgers University, has contributed a Foreword. Dalla quarta di copertina Praise for Barbara Mensch's Work""The charm of this book, its foremost value, is that it proceeds from the viewpoint of a superb visual artist who uses this particular structure and cityscape, the Brooklyn Bridge, as her muse. It is this personal encounter with the physical sites of her protagonists that makes the book sounusual. As well, her exploration of the inner chambers of the bridge is novel and thrilling.""?Phillip Lopate""Barbara Mensch's photographs . . . are like images from another era, rediscovered documents rom the time of Stieglitz and Strand.??Photograph Magazine?What is clear is the tremendous research undertaken to bring this project into print.??Net Galley ?As Mont St. Victoire was for Cezanne, the bridge has been a constant in her life and art.??Bonnie Yochelson, New York Times?From her top-floor studio in a warehouse abutting the Brooklyn Bridge, Ms.

Mensch has, since the late '70s, snapped the waterfront in all its grit and glory. The Wall Street Journal Her photographs have real staying power like a true Mensch. Bruce Davidson, photographer L'autore Barbara G. Mensch has had numerous exhibitions of her photographic work. Her images are represented in some of New York City's most prestigious galleries, and her work is included in important collections, including those of MoMA, the Museum of the City of New York, the Brooklyn Museum of Art, Fundacion Televisa of Mexico City, the Bibliothèque Nationale, and the Museum of Fine Arts, Houston."
